# MONTHLY MEETING

## March 26, 2019

Flamingo Hotel and Resort,

2777 Fourth Street, Santa Rosa

Social Hour 5:00 PM Dinner 6:00 PM

State Senator Mike Morrell, Speaker

### "There's Hope for California"

State Senator Mike Morrell, born and raised in California, will bring us a rousing, optimistic outlook for our state, which is currently mired in homelessness, welfare, illegal immigrants and poor education results. He encourages us to ignore the "platitudes and promises" of our new governor whom he expects to install a "more expansive and intrusive government at the expense of taxpayers."

Mike hosts dozens of interns through his office and has been impressed by their caliber and devotion to serve our state and country. He looks to our state's rich past and the enthusiasm of these young people to apply our nation's founding principles to public service.

The Senator's priority's is to make our communities safe while "letting Californians keep more of their hard-earned money to choose how they invest in their futures." He says, "The Democrats in Sacramento continue to overreach, but those pursuits bring us opportunity."

Senator Morrell represents the 23<sup>rd</sup> State Senate District, Rancho Cucamonga, a wide area spanning both Riverside and San Bernardino counties. He serves as Vice Chair for the committees of Legislative Ethics, Energy, Utilities and Communications, and Public Employment and Retirement. In 2016, the Military Officers Association of America named Mike its Legislator of the Year.

## PRESIDENT'S MESSAGE

### The Good, the Bad, and the Really Ugly

The good news, of course, is that SRRWF membership continues to grow as does NFRW with 32 new clubs chartered in 2018. Other good news: CFRWND clubs donated more than \$30,000 to flood and fire victims in Northern California.

The bad news is that registered Republicans in Sonoma County went from nearly 54,000 to now 49,830. We have lost ground, not necessarily to the Dems but to No Party Preference or Decline to State.

The really ugly news is that 2 million California Republicans did NOT vote in last November's election. A couple of the races were quite close, but had every Republican voted, Steven Bailey would now be Attorney General and Becerra would be looking for work. AND, we could have passed Prop 6 and rolled back the gas tax! But we didn't. You know what this confirms—every vote counts. Ballot harvesting is legal—but we didn't do it. The Dems are good at it. We could be too. With the Motor Voter law, 186,000 people registered to vote at the DMV: 50% NPP, 35% Dems, and 15% Republicans.

I hope, as we look forward to the 2020 elections, that we consider getting more involved in several ways: (1) helping to get the word out, (2) working to get all Republicans to vote and (3) trying to register more Republicans and “turning” those NPPs and DTSs back to the GOP.

We stand for all that is good in America: belief in individual responsibility and limited government; free enterprise; strong national defense; strong education in reading and math and parental control of our children's education; legal immigration and secure borders; and the Constitution as it was written to name a few. With the Dems going very left, especially in California, we must work to keep our state from turning into the model for socialism. It could happen. As California goes, so often goes the country. Let's be more visible. Let's write more letters to the editor. Let's take the offensive and be proactive. Let's spread our positive message. Let's be proud to say we're Republicans. *Sandy Metzger, President*

### MEMBERSHIP - Moira Jacobs, 2nd Vice President

Hello SRRWF Members!

It's time to rally! Please renew if you haven't already. We have a big stretch goal of 200 by 2020. We can do it if everyone pitches in and reaches out to new friends who may not even know we exist.

We'll be announcing our NEW calling campaign soon which will be great fun. We'll have a team of SRRWF Ambassadors calling out to the many Republican women

we know are right here in our neighborhoods but don't know about us. They are out there incorrectly thinking they're all alone. Wait until they learn about us this year!

Finally, please let me know if you'd like to be a mentor this year. Our 2019 Mentor Program will kick off soon. You may be wondering: what is the role of a mentor? It is simple, easy and fun! Please let me know if you'd like to be a SRRWF mentor and/or ambassador. I can fill you in on the details. Together we can do this. We can Make Sonoma County Great Again!

The November 2018 elections, especially in California, did not produce a good result for Republicans. After all the votes were counted, the Republican Party lost seven congressional seats in California. Therefore California now has seven Republican congressional seats. What happened?

First of all: Nancy Pelosi started planning for a Democrat takeover of the House right after President Trump's inauguration in 2017. Secondly: Democrat money and money from independent sources (Tom Steyer and Michael Bloomberg) totaled over **\$1 Billion**. That is how much was spent to take over the House.

Now, how did the Dems get the votes, especially in California? Yes, we have ballot harvesting. Yes, we have same day registration and voting. But, exactly how do those things play out?

On September 29, 2016 Governor Brown signed a bill that removed restrictions on who could turn in a ballot and instead authorized any person to return a ballot.

Remember: Republican voters will rarely give their ballot to another person. The Dems did their ballot harvesting in poorer and low propensity voter areas. But, how did the Dems get those voters to give them their ballots?

1. The ballot harvesters for the most part were paid up to \$20 an hour.
2. Democrats in Orange County rented buildings where people could go to meet, use wi-fi and talk to political activists. There was a coffee shop atmosphere. These were fully staffed West Coast Headquarters and were opened in April 2017.
3. The ballot harvesters visited voters as many as five times and basically became their friend. By the fifth time, they could help a voter fill out their ballot and even drop it off for them.
4. There was also some voter intimidation by the harvesters. Some Democrat voters were contacted more than 100 times in the final 60 days.

Now, ballot harvesting is basically GOTV: Get Out The Vote. Now, true GOTV requires work. In certain areas it requires returning to the voter a number of times. The problem is that Republican volunteers are workers. They are not getting paid to get out the vote.

What are the results of the Democrat efforts in Orange County ?

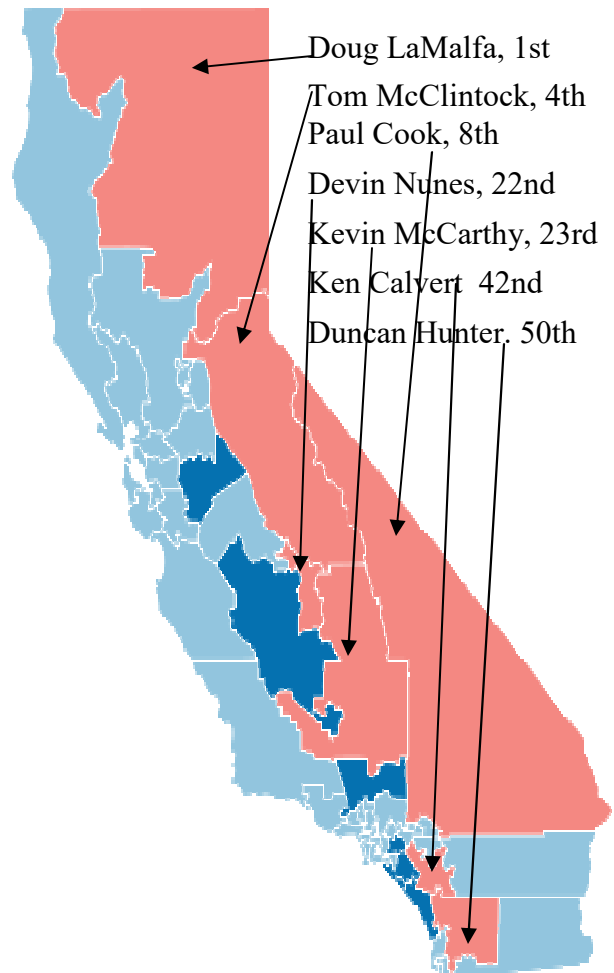

- ◆ In 2016 Congressional Districts 39, 45, 48 and 49 were Republicans.
- ◆ In 2018, Democrats won Congressional Districts 39, 45, 48 and 49.

Given the laws that have been passed by the Democrat legislature, Republicans in California are going to have to change how they campaign and how they contact voters.

The game plan has changed and either we adapt or we become totally irrelevant.

### California Republicans hold seven seats.

- Light Blue - Democrat Hold
- Deep Blue - Democrat Pickup
- Red - Republican Hold

**Capitol Update Friday, March 01, 2019**  
**California Federation of Republican Women**  
**Nam-Yong Horn, President**  
**The Good, The Bad, The Ugly**

The deadline to introduce bills this legislative session was last Friday. Over 2,000 bills have been introduced this session between the two houses, with almost 750 on Friday alone. Many of these bills are what are considered "spot bills." We have mentioned spot bills on more than one occasion before here in the Capitol Update. Spot bills are a legislative vehicle to circumvent constitutional deadlines and drop in the language and function of a bill at a later date. All that is required for a bill to be introduced is an author (or committee), a title, and a vague summary of what the bill intends to accomplish. The spot bill can travel through the legislative process, being passed along until the author or committee drop in the language and true intent of the bill at a later date.

Since the deadline to introduce bills, there has been good news and bad news. The good news is that it seems legislative Democrats are not going to try to pass universal, single-payer healthcare this session. There was no bill introduced addressing it or alluding to it. This isn't to say they won't try it later in the session through a gut and amend, but as for now their leaders claim it is not a priority. The bad news is, of the bills introduced, it seems that Democrats are going to try to tax everything that moves, and even some things that don't. From oil and gas (yes, again) to soda, to drinking water, to car tires, to guns. As the session continues and these bills begin being heard in their first committees, we will need to continue to educate other Californians. The Democrat majority in the legislature has gotten away with taxing Californians to the bone for too long! Californians need to know what happens in Sacramento!

**CRP Convention Update**

The California Federation of Republican Women is one of the largest delegations to the California Republican Party. Last weekend the Party met in Sacramento for our organization convention, electing our new Chair, Vice Chair,

Secretary, and Treasurer. We are excited to congratulate our new party Chair, Jessica Patterson, the first Latina AND the first woman elected Chair to the state party. We also extend congratulations to our new Vice Chair, Peter Kuo, new Secretary, Randy Berholtz, and our new Treasurer, Greg Gandrud. We know that as Republican Women Federated, our state party has always been this diverse. Now the CRP Executive Board reflects the Republicans in the state of California. Although the election was a bit contentious, the CFRW supports our new board and encourages all Republicans to come together to bring the fight to the Democrats. It's time we protect and educate the millions of Californians the ritzy Democrats have long since forgotten: the farmer, the small business owner, the janitors, the mothers, the students, the commuters, to name just a few. It is going to take grassroots outreach and education, and the California Federation of Republican Women are up to the task!

**Protecting Free Speech on Campus**

Last legislative session, the CFRW supported Assemblyman Kevin Kiley's AB 2374, which would have protected and strengthened student's on California college campuses right to free speech. This was specifically aimed at support for College Republicans, who are so often discriminated against, barred from bringing conservative speakers to campuses, or shouted down in class (sometimes by professors themselves), just because of their conservative views. Well, wouldn't you know it? The legislative Democrats killed this bill in committee. That this even has to be a bill is a prime example of the sorry state of affairs on our public college campuses and in our Democrat majority legislature. Well, Assemblyman Kiley isn't giving up and has vowed to fight for our Republican students. This session he introduced AB 1571, The Free Speech on Campus Act. We, as Republican Women Federated, must do everything we can to support this legislation and support our College Republicans! As this bill moves to it's first committee hearing and onward, we will have a call to action for our members, so please stay tuned!

NFRW Board of Directors Meeting  
March 28-30, 2019  
Westin Alexandria,

## President Trump has nominated Kelly Knight

**Craft** to succeed Nikki Haley as U.S. Ambassador to the United Nations. Craft is currently serving as Ambassador to Canada.

President Donald J. Trump nominated Ambassador Kelly Craft to be the United States Ambassador to Canada. She was formally sworn in on September 26, 2017. She presented her credentials to Governor General Julie Payette on October 23, 2017.

U.S. Ambassador to Canada Kelly Craft serves as the President's personal representative to the government and people of Canada. She leads the U.S. Mission to Canada which comprises the Embassy in Ottawa and seven Consulates located across Canada.

Ambassador Kelly Craft is a leader, entrepreneur and philanthropist who has made community service and improving education the cornerstone of her career.

In 2007, President George W. Bush appointed Ambassador Craft as an alternate delegate to the United Nations General Assembly.

## JIM MCCULLY WRITES AN OP-ED THIS WEEK...

Jim McCully, an official of the California State Republican Party at both the county and state levels, writes an op-ed this week. Before I was a GOP official, I was just a Republican voter fortunate enough to have been born and raised in Washington, D.C. where politics is the all-consuming business of the town.

I spent years around national politics and politicians professionally with presidents: Nixon, Ford, Carter, Reagan, Bush and other high-level elected officials as a special agent of the United States Secret Service. I later worked on Capitol Hill as an investigator for two U.S. senators: Orrin Hatch, R-Utah, and Sam Nunn, D-Georgia. So, politics and politicians are not a

mystery to me, nor am I impressed by most of them. But some do stand out on both sides of the political spectrum, for good or ill.

I finished up my term of office as the Northwest Regional Vice Chairman of the state Republican Party along with retired state Sen. Jim Brulte who was chairman of the party.

Jim Brulte found us financially broke and a demoralized party six years ago. In that time, he transformed a failing organization into a modern, well-staffed and fully functioning political party positioned for the future. We paid off all debts and Sunday the board of directors left three months of operating capital and a new diverse board of directors was elected.

OK, Jim, what does that really mean as we are now officially in third place behind Decline to State/No Party Preference voters? What it means is that we left the party in a place where the newly elected officers are in a position to compete with others and grow.

OK, how? Well, we had game-changing choices to make over the weekend where one of the largest delegate populations in recent memory assembled in Sacramento to elect new officers. We had three longtime party activists representing the spectrum of delegates running for chairman. We had others running for party offices who would make up the new Board of Directors and be the face of the party to the public.

We saw and heard various good patriotic citizens and their advocates tell us why they were the answer to our problems. Jim Brulte, I and other board members ensured all concerned received equal time and access to the delegates from morning till night. Delegates were all talking and debating over who should do what, with what and how their guy/gal was the right answer.

Then came the vote. Jim Brulte the leader we all looked to for six years, knowing he was minutes from stepping down and a new chairman or, maybe historically, a chairwoman would be taking his place. He oversaw the elections with all the dignity, style and where appropriate, wit for which he is renowned. Wow! What would happen? All hoped their candidate would prevail. When the dust settled, the election results were interesting. An ethnically Hispanic, dynamic, intelligent 38-year-old wife and mother of two, Jessica Patterson, was elected as chairwoman. Imagine that! An immigrant Taiwanese man, Peter Kuo, as vice chair, a gay man Greg Gandrud as treasurer and, Randy Buckwoltz, as secretary. The state Legislature voted in Marie Waldron as Assembly minority leader and Patricia Bates as Senate minority leader. Shannon Grove was elected as Senate Republican Leader. Wow! Well, it seems: "change" wanted, "change" achieved. Mission accomplished.

# AMERICANISM AND SONOMA COUNT GOP

## AMERICANISM –Orlean Koehle, Chair

As Republicans, we believe in small government, free market capitalism, entrepreneurship and innovation and individual responsibility. On the other hand, there's Alexandria Ocasio-Cortez, the 29-year old socialist Democrat Congresswoman from New York and author of the radical "New Green Deal," apparently popular among Millennials.

**The Green New Deal** is her ten-year plan to radically change how we use energy, under the mantra "of saving the world from climate change." She calls for our nation to eliminate fossil fuels and run totally on green energy like solar and wind; use only electric vehicles and electric home appliances; limit airplanes because they use fossil fuel; and renovate all buildings to make them more energy efficient.

**AOC uses fear tactics** by announcing we must turn our lifestyle around or the world will end in 12 years.

**Socialism** is defined as: "a political and economic theory of social organization which advocates that the means of production, distribution and exchange should be owned or regulated by the community as a whole," in other words, big government.

## Green New Deal Would Annihilate the American

**Economy:** As Ned Ryan, former speechwriter for President Bush, said in an interview with Neil Cavuto on FOX Business Network, Feb. 27<sup>th</sup>, "*The Green New Deal is nothing more than coercive socialism, in other words communism.*" He calculated the cost at about \$92 trillion over ten years, or about \$600,000 per American household.

This is not the American we want. Write to your Senators and House representatives and tell them so.

## SONOMA COUNTY GOP CHAIRMAN'S MESSAGE

By Edelweiss Geary, Chair Sonoma GOP

## CAGOP CONVENTION MESSAGE

March is supposed to be the windy month. Well, there are plenty of political winds this March. The delegates from Sonoma County to the California Republican Party Convention will be dealing with a totally different state board after the party election. Of course, the reports in the media are not quite what your delegates think happened.

The media reports the convention as a battle between those supporting Donald Trump and those not supporting the President. That was not by any means the overwhelming theme of the convention. The new state president, Jessica Patterson, is a supporter of the President. Unfortunately, the media dislike of the President colors all of their reporting. That is why it is so important to get news from various alternative sources.

Delegates were able to hear from HUD Secretary Ben Carson, Congresswoman Liz Cheney, Political Activist Sean Spicer and Media personality Steve Hilton. They were all terrific.

## Sonoma County Republican Party held its Annual Lincoln Day Dinner.

Our speaker was Assemblyman Jay Obernolte from the 33<sup>rd</sup> Assembly District. He was excellent and shared some of what is going on in the legislature. We truly appreciate his making the trip to Sonoma County. A good time was had by all.

One of Assemblyman Obernolte's discussion points was the future of California and of course the Republican Party. It is highly likely that the Democrats in the Legislature will go too far.

Their legislation is already causing many people to wonder what is going on. It is crucial that more Californians of all parties fully understand that thousands of bills are introduced in each legislative session and many are passed which directly affect our lives. When do voters start asking why so many people are leaving the state and why there are so many homeless people all over? Could it be the laws that are passed that constrict the freedom of the average (not the elite) California citizen?

The county party is very aware of the fact that education is crucial to an informed electorate that understands the political process. For that reason, we are starting a Leadership Group to train Republicans on the various aspects of government. We aim for a group of 20 who will and can commit to two hours one Saturday a month. Our goal is to have various speakers train on the inner workings of government and provide an understanding of state and election laws. If you are interested please e-mail me at [info@sonomacountygop.org](mailto:info@sonomacountygop.org).

Let's remember one important thing. **EVERYONE CANNOT LEAVE CALIFORNIA.**

## Speech is on YouTube

# SRRWF ACTIVITIES - LETTERS TO THE PRESS DEMOCRAT

Letter to the Editor, submitted  
Published 2/18/19. Titled by PD  
"A Socialist Deal."

The so-called Green New Deal is more like the Lunatic Left Socialist Deal based on apocalyptic predictions of Biblical proportions. Will the world truly end in twelve years?

The booming energy industry, i.e. natural gas and oil, affordable energy, would be replaced by zero-emission energy sources. Solar and wind? Pity the eagles and condors. Is there enough timely sun and wind necessary to provide electricity for all residential, agricultural, commercial, and industrial needs? How to build and store it?

High speed electric rail crisscrossing the US—just like the disastrous one our state couldn't construct on time or on budget? Solar charging stations everywhere? Electric cars, bulldozers, and 18-wheelers? Solar-powered planes? Right.

Upgrading every existing building in the US for energy efficiency? Eliminating cattle due to their alleged dangerous levels of methane emissions?

This is total government intrusion into our lives—telling us what to eat, what to drive, how to travel, how to construct our homes, and redistributing wealth from the producers to fund free schooling, vacations, health care, housing, and "economic security" for the non-producers.

Cost? Trillions. They could print money or tap investments (code for taxes).

Socialism, never.  
Capitalism, always.

Submitted by Sandy Metzger,  
Santa Rosa

Letter to the Editor, submitted 2/18/10  
Published 2/20/19. Titled by PD

On Friday, February 15, the Press Democrat ran an article published by the Associated Press entitled "Lethal opioid wave: Southwest states plagued by cartel's flood of Fentanyl." The article noted that the border states, including Arizona and California, have become hot spots in the nation's Fentanyl crisis. The article tells us that the Sinaloa cartel is responsible for ramping up the production of this drug because they find it so lucrative to supply it here in the United States. Please keep in mind that we had 70,000 deaths last year due to overdoses of this drug and others, an increase of more than 45 percent from 2016 to 2017.

On February 16, the Press Democrat published an article that Governor Newsom is instigating a lawsuit over President Trump's plan to declare a national emergency along our southern border to stop drugs, sex trafficking, and other illegal activities. Newsom calls it a manufactured crisis at the border.

I do not consider 70,000 deaths in one year a manufactured crisis. I am sure if you had a loved one die from an overdose, you would disagree with our governor. This crisis is real and getting more deadly every year.

Submitted by Sandy Barklow,  
Windsor

*Jim Sweeney, editor at the Press Democrat, has changed the policy regarding Letters to the Editor. You no longer have to wait 90 days to have your letter published. Therefore, the exchange between letter writers is far more interesting and pertinent. Even though people respond to our letters in a negative manner there is dialogue and we are getting our opinions published. Sonoma County Republicans need to know there are Republicans in the county who are able to express their opinions and have them published.*

Letter to the Editor, submitted 2/18/19  
Published 2/20/19. Titled by PD

EDITOR: As a proud American and one who is grateful for this Nation, I would like to thank President Trump for stating these words during the State of the Union Address on Tuesday; "America was founded on liberty and independence -- not government coercion, domination, and control. We are born free, and we will stay free. Tonight, we renew our resolve that America will never be a socialist country."

**MARCH IS WOMAN’S HISTORY MONTH**

**Betty Ford: A Champion for Breast Cancer Awareness**

In April, at the National Archives Museum in Washington, D.C., the public can view rarely seen objects, documents and photographs that highlight Betty Ford’s courage and candor when speaking publicly about her own personal battle with breast

cancer. Breaking with social conventions of the time, she reassured women already suffering from similar ordeals and purposefully raised public awareness of screening and treatment options that ultimately saved the lives of countless Americans.

**The Origins of Women’s History Month**

Women’s History Month in the United States grew out of a weeklong celebration of women’s contributions to culture, history and society organized in a Sonoma County, California school district in 1978. Presentations were given at dozens of schools. Hundreds of students participated in a “Real Woman” essay contest and a parade was held in downtown Santa Rosa.

**Did you know?**

To coincide with Women's History Month 2011, the White House issued a 50-year progress report on the status of women in the United States. It found that younger women are now more likely than their male counterparts to hold a college degree and that the number of men and women in the labor force has nearly equalized.
